

Upper Key Stage 2

Ancient Greece Democracy

Learn about the development of democracy from its creation in Ancient Greece to systems used today. We will be running our very own class democratic system. This block will also enhance our understanding of fundamental British values.

An Introduction to Democracy:

We will learn about the development of democracy from its creation in Ancient Greece. We will then run a modern vote on a class or school issue.

Teaching Outcomes:

- To learn about how democracy is organised in modern Britain
- To recreate a modern democratic system

Children will:

- Understand different modern democratic systems
- Undertake public speaking and debate
- Voice their opinion on representative democracy

Ancient Greek Democracy:

We will discover exactly how democracy began in Ancient Greece. We will also take part in an Ancient Greek vote.

Teaching Outcomes:

- To learn about how democracy worked in Ancient Greece
- To recreate an Ancient Greek democratic system

Children will:

- Understand the system of democracy in Ancient Greece
- Take part in a debate run as a community of enquiry
- Compare and contrast two forms of democracy

Building a Democracy:

We will look back at the different examples of democracy studied and we will run our own class democratic system.

Teaching Outcomes:

- To use their knowledge of Ancient Greek and modern democracy to create their own democratic system
- To create and run their own democracy

Children will:

- Apply their knowledge of different democratic systems to create their own
- Take part in debate.
- Evaluate their own participation in the debate
